Bangladesh Army International University of Science and Technology

Department of Computer Science and Engineering

Lab Report

Lab Report No	:	01					
Lab Report Name	:	Design and Implementation of Basic Web Components Using HTML					
Course Title	:	Web Technologies Sessional					
Course Code	:	CSE 324					
Name	:	Md Najmus Sakib Rahatul					
ID	:	1119003					
Level	:	3	**Term**	: 2	**Section**	: A	**Group** : G1
Date of Submission	:	12/10/26	**Semester**	: Fall-2026	**Year**	: 2026	

Marking Rubric

Problem Understanding & Report Clarity (3)	Implementation (4)	Results, Analysis & Presentation (3)	Total

Key Learnings:

- Understand the structure of an HTML document and use essential tags and attributes effectively.
- Apply semantic elements to organize content and improve accessibility.
- Design basic web layouts and components such as forms, tables, and navigation menus.
- Follow best practices to write clean, readable HTML and understand its role as the foundation of web development.

Task 01: Design a Product Card

Objective

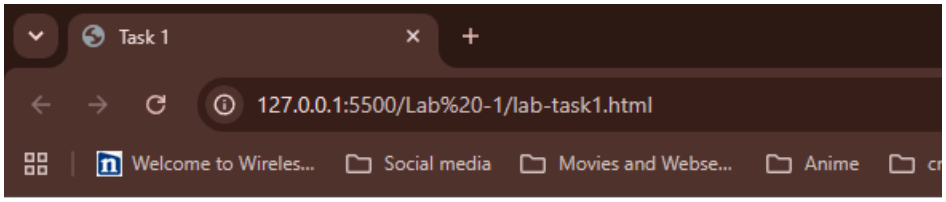

Create a reusable e-commerce product card using basic and semantic HTML tags.

Source Code

HTML

```html
<!DOCTYPE html>
<html>
    <head>
        <title> Task 1</title>
    </head>
    <body>
        <div>
            <img src="tshirt.jpg" alt="Product Image" width="300">
            <h3>Drop Sholder T-Shirt</h3>
            <p>100% cotton fabric anime print tshirt.</p>
            <p>Price:<del>25$</del><strong>15$</strong></p>
            <button>Add to Cart</button>
        </div>
    </body>
</html>
```

Output

Drop Sholder T-Shirt

100% cotton fabric anime print tshirt.

Price:~~25$~~**15$**

Add to Cart

Task 02: Student Result Table

Objective

Structure tabular data comprehensively using advanced HTML table features including thead, tbody, rowspan, and colspan.

Source Code

HTML

```html
<!DOCTYPE html>
<html>

<head>
    <title>Task 2</title>
</head>

<body>

    <table border="1">
        <thead>
            <tr>
                <th>Department</th>
                <th>ID</th>
                <th>Name</th>
                <th>Sub-1</th>
                <th>Sub-2</th>
                <th>Total</th>
                <th>Grade</th>
            </tr>
        </thead>

        <tbody>
            <tr>
                <td rowspan="5">CSE</td>
```

```
        <td>101</td>
        <td>Sakib</td>
        <td>80</td>
        <td>70</td>
        <td>150</td>
        <td>A+</td>
    </tr>

    <tr>
        <td>102</td>
        <td>Fahim</td>
        <td>70</td>
        <td>80</td>
        <td>150</td>
        <td>A+</td>
    </tr>

    <tr>
        <td>103</td>
        <td>Rakib</td>
        <td>60</td>
        <td>70</td>
        <td>130</td>
        <td>A</td>
    </tr>

    <tr>
        <td>104</td>
        <td>Efran</td>
        <td>75</td>
        <td>80</td>
        <td>155</td>
        <td>A+</td>
    </tr>
```

```
            <tr>
                <td>105</td>
                <td>Nesar</td>
                <td>85</td>
                <td>90</td>
                <td>175</td>
                <td>A+</td>
            </tr>

            <tr>
                <td colspan="5">Class Average</td>
                <td colspan="2">152</td>
            </tr>
        </tbody>
    </table>

</body>

</html>
```

Output

Department	ID	Name	Sub-1	Sub-2	Total	Grade
CSE	101	Sakib	80	70	150	A+
	102	Fahim	70	80	150	A+
	103	Rakib	60	70	130	A
	104	Efran	75	80	155	A+
	105	Nesar	85	90	175	A+
Class Average					152	

Task 03: Personal CV using HTML

Objective

Build a complete webpage summarizing personal resume using semantic HTML elements, lists, and interactive form controls.

Source Code

HTML

```html
<!DOCTYPE html>
<html>

<head>
    <title>CV - MD. Najmus Sakib</title>
</head>

<body>

    <header>
        <img src="profile.jpeg" alt="MD. Najmus Sakib" width="120">
        <h1>MD. Najmus Sakib Rahatul</h1>
        <p>CSE Undergraduate | Web Developer</p>
        <p>
            <a href="#">GitHub</a> |
            <a href="#">LinkedIn</a>
        </p>
    </header>

    <main>
        <section>
            <h2>Skills</h2>
            <ul>
                <li>C, C++, Python, JavaScript</li>
                <li>Django, React, Next.js</li>
```

```
                <li>HTML5, CSS3, Git &amp;amp; GitHub</li>
            </ul>
        </section>

        <section>
            <h2>Education</h2>
            <dl>

        </section>
    </main>

    <footer>
        <h3>Contact Me</h3>
        <form>
            Name:<br>
            <input type="text" name="name"><br><br>
```

```
            Email:<br>
            <input type="email" name="email"><br><br>

            Message:<br>
            <textarea name="message" rows="3"
cols="30"></textarea><br><br>

            <button type="submit">Send</button>
        </form>
    </footer>

</body>

</html>
```

Output

MD. Najmus Sakib Rahatul

CSE Undergraduate | Web Developer

GitHub | LinkedIn

Skills

- C, C++, Python, JavaScript
- Django, React, Next.js
- HTML5, CSS3, Git & GitHub

Education

B.Sc. in Computer Science & Engineering
Bangladesh Army International University of Science and Technology (BAIUST)
Roll: CSE-1119003

Projects

aloron-shop
E-commerce web application using Next.js and TypeScript.

SmartSpend
Personal expense tracking application built with Python & Django.
